HIGHER DIPLOMA IN

CONSTRUCTION PRODUCTIVITY MANAGEMENT

Focus on being **productive** instead of busy

**SLQF
Level 4**

Target Group
Engineering Assistants
Construction Supervisors
Technical Officers

Duration
1 Year
(Part-time)

Why is this Higher Diploma significance for the Sri Lankan construction sector?

The HDCPM is willing to be an ideal programme for the Sri Lankan construction sector. The programme meets the industry needs and expectations, and includes effective and innovative practices for the productivity improvement in the industry through proactive education and training strategies. It clearly specifies the competencies, knowledge and attitudes of the construction industry practitioners. The curriculum of this Higher Diploma programme was systematically developed by the experts through an extensive investigation conducted in the Sri Lankan construction industry with the direct scope of improving the performance and productivity of the construction workforce. The HDCPM includes outcome-based teaching, learning and assessments with relevant quality assurance practices. The academic activities of this programme will be delivered by the university lecturers and qualified engineering experts from the industry. The significance of this academic programme is the inclusion of independent project studies on performance and productivity improvement practices through the applications of work-based training components within a systematic framework.
